Re: COWE-17-009783

Your honor, this Motion to Vacate is requested due to not being able to arrive at the pretrial that was set for October 11th, 2017. On that day I was working in Smithfield, RI and can submit documentation supporting that. Due to the nature of my job, I get very little time off - spending over 300 days per year away from home. I have not been to my home in Atlanta since my last request for a continuance because I had to take time off to fly down to South Florida last minute to evacuate my family from Hurricane Irma the first week of September and therefore was not able to retrieve my mail at home in Atlanta for this case leaving me unaware that the case was tried this past week. I can also provide documentation supporting that as well. From here on out I will be retrieving the court documents through the County Clerk website so I do not have to depend on mail for updates on this case.

Unfortunately I work and drive through the night and am asleep during normal daytime hours making it hard for me to seek legal advice on this matter. That is why I sincerely request this motion to vacate so I can find time to further gather information on how to defend myself in this legal matter.

Thank you.

Sincerely,

Jacqueline Rocha
