I want to make this clear to both of you. Stop contacting anybody affiliated with me. You've made it clear who you're supporting. This is now the third endorsement you've called to try to have taken away from me. Why do you keep doing this? Leave me alone.

At this point, I feel like you are stalking and harassing me. As a Black woman, I am very afraid. I feel like I'm in danger, and I need you to take that seriously.

I will call the Miami-Dade State Attorney's Office and show them all the proof I have. I am asking you again: stop contacting me and the people affiliated with me. I want this to stop.
