Subject: Linda Joseph Police Report

Darvin, Juan

This is a copy of the police report Linda Joseph made on October 27, 2026 . Please red paragraph 3 in which LJ stated Bruce lamberto was harrassing her by following her **TO HER RESIDENCE.** LJ further stated that "Bruce Lamberto entered her property by unlocking a gate and took a photo of her vehicle while it was **PARKED AT HER RESIDENCE.**" For the record, I have never gone by or entered the property where she is claiming residency on West Dixie Hwy. Another resident sent me photos of a car she was driving parked in the garage for weeks in the same space parked at the same angle. I used these photos, along with photos of her car taken at her 157th St address to file an Elections Complaint with the Florida Division of Elections who sent her a copy of my complaint to them.

Her entire statement is perjurious. I want to go on record with my statement. I also want Linda Joseph prosecuted for her perjurious statements made to a NMB police officer and on her application to run for City Commission. She cannot claim her BG 157th Street address is her current residence while running for office using a different address in NMB.

INCIDENT/INVESTIGATION REPORT

Narr. (cont.) OCA: 2026-1027-09 *North Miami Beach Police Department*

NARRATIVE

On the listed date and time, I responded to the North Miami Beach Police Department lobby in reference to a harassment complaint. Upon arrival, contact was made with Linda Joseph Noel (RP), who advised Stephanie Kienzle, Commissioner Fortuna Smukler, and Barbara Kamer had been harassing her through repeated emails and phone calls.

Noel stated she sent Commissioner Smukler an email regarding issues she was noticing, which Smukler forwarded to Kienzle. Noel advised that the individuals continued exchanging aggressive and insulting emails with her throughout Sunday. Noel stated she repeatedly asked them to disengage and advised them that she did not wish to communicate with them. Noel further stated that the individuals called her names, including stupid, dumb, ugly, unintelligent, and uneducated. Noel advised that she had asked them to stop contacting her because she did not want further communication. Noel also stated that Kienzle contacted people about her and commented on posts on her social media platform. Noel denied giving Commissioner Smukler permission to forward the email she had sent to her privately.

Noel further advised that Bruce Lombardo had been harassing her by following her to her residence. Noel stated that Lombardo entered her property by opening her gate and took a photograph of her vehicle while it was parked at her residence. Noel advised that she did not personally witness Lombardo taking the photograph but recognized him in the reflection of the image after it was posted.

Noel stated that the individuals had been harassing her since January and that she had received over 100 emails during that time. Noel stated she is in fear for her life but advised that none of the above individuals threatened her or expressed any intention to cause her harm.

An NMBPD case card was issued.

Below is a copy of my statement I made directed to Linda that I posted In Voter's Opinion in the November 10, 2026. I have never contacted her by email, phone, or in person as I am aware of her nefarious behaviour since she was involved in the Biscayne Gardens Incorporation issue 5 years ago. As stated below, I did enter her property 5 years ago, unaware that that was her residence. At the time, I was going door to door throughout Biscayne Gardens handing out flyers (with other volunteers) telling voters to "Vote NO for Incorportion" which the majority of residents were in agreement with. This was proven when the the issue was voted on at a Special Election in 2021, losing 84.6% AGAINST with just 15.4% FOR.

November 11, 2026 at 11:03 pm

Listen Up Linda. I know you can't wait to read Steph Kienzle's next blog about you so I know you are reading this post. For the record, I have NEVER called you, NEVER sent you an email, NEVER followed you home, and NEVER opened your gate on your property EVER.

I did go on your property on NW 157 St over 5 years ago in 2021, along with Margaret R. when we were canvassing neighborhoods to hand out flyers opposing the incorporation of Biscayne Gardens into a City. I had no idea where you lived at the time but soon found out when I left a "Vote No For Incorporation" flyer door hanger on your front door.

Margaret and I were about six houses away from your home when we heard tires squealing and you backing out of your driveway, then slamming your car in drive and accerating at an excessive speed aiming your car right at us, slamming on your brakes a mere 5 feet from where we were standing. From your foaming-at-the-mouth bellowing voice, you got out of your car and yelled to us that "you should never set foot on my effin' property ever again." Looking manical as you do in your photo in this blog. You got back in your car and returned to your home.

After you filed to run for public office in North Miami Beach claiming an East Drive address as your "residence", I began documenting your car being parked in your driveway at your NW 157th St address, at numerous times and dates just like Google Earth Street View photo documents every home in the US. When I have driven down NW 157th Street, I am always in a car or truck and never exit the vehicle anywhere near your house. I own a rental home two blocks away from your home so I frequently use 157th Street to go to my property.

By the way, I have never noticed any closed gate on your driveway, so stating I unlocked your gate is another one of your Lying Linda Lies. Anytime you get the urge, feel free to drive by my house in NMB and take photos of my cars located there.

Understand that real NMB residents, such as myself, have every right to document residency fraud by carpet-bagging non-residents.
