Linda Joseph's False Accusations (Email #1)

Dear City Manager Williams,

I understand that Linda Joseph filed a complaint against myself, Commissioner Fortuna Smukler, former Commissioner Barbara Kramer, as well as one against resident Bruce Lamberto. She alleged that Mrs. Smukler, Mrs. Kramer and myself harassed her via email.

I also believe that she made separate allegations against Bruce Lamberto, which I have no knowledge of, and which I am not addressing in this email.

As for her false accusations of "email harassment," below is one of the email chains that began on October 17, 2026, when Linda sent an unsolicited email to Fortuna and me, which you can read at the very bottom of this email chain. She demanded that Commissioner Smukler illegally destroy a public record.

I responded immediately, and advised her that I was copying city officials, including Police Chief Juan Pinillos. As the email chain grew, various individuals were added and she kept responding to everyone who also added their opinions.

I am sending this to you and to Chief Pinillos as evidence that she was the one who initiated this matter. She also kept telling people to leave her alone, while at the same time harassing anyone who responded in the chain.

By her own actions, Linda Joseph invited whatever blowback that she deservedly received.

I will also forward next a second email chain in which Linda was the perpetrator again, and which received multiple responses, as further evidence that she is the one who is instigating the entire situation.

I certainly hope you investigate this matter thoroughly. I cannot speak for Mrs. Smukler or Mrs. Kramer, but if she continues with her false accusations against me, she will give me no choice but to take legal action.

By this email, I am making a public records request for the report that she filed today.

Thank you for your attention in this matter.

Regards,

Stephanie Kienzle

As you are aware, I am aware of your political history in Biscayne Gardens where you have resided for over 20 years. You still live there. In 2021, you colluded with soon-to-be ex-Commissioner Monestine, fake doctor Bernard Jennings, and Michael the Black Man and his group,
> to participate in an Incorporation campaign to make Biscayne Gardens into a City. If you recall, I went door-to-door in Biscayne Gardens handing out brochures and flyers educating the residents not to vote to incorporate becasue their property taxes would increase and they would receive LESS services than they were presently receiving. I was not aware where you lived at that time until I apparently knocked on your door at your home on NW 157th St. When you did not answer, I left a flyer at your doorstep. As my college and I were visiting your neighbors homes, you got in your car and drove at a high rate of speed and skidded to a stop a few feet my colleague Margaret and I. You got out of your car and yelled at us in your famous bellowing voice to never set foot on "your property" again. Fortunately, when the $120,000 Special Election Vote was taken, 84.4% of the residents rejected becoming a city. Many of the residents I spoke to after the election failed stated they were appalled at you and your groups campaign tactics, and the outright racism that was associated with the group you aligned yourself with. You recall the tour buses and trailers posting large photo signs of Michael the Black Man and his group stating "White Man Don't Want Black City" and referring people to his website for "proof". That campaign was so outrageous that both Channel 7 and Channel 10 did on the spot broadcast segments for their noon and evening news slots on several occassions. Did you forget about that?
>
> Because you played such a prominent role in the Biscayne Gardens incorporation effort, I was surpirsed by the fact that you appeared at an NMB City Commission meeting and publically spoke on behalf of the Mayor, that you "voted for him" when it was impossible for you to do so as you live in Biscayne Gardens and were not eligible to vote for him (unless you committed voter fraud by doing so). Subsequently, I was also surpised that late last year you changed your voter registration to an East Drive location on the last day eligible for you to file to run for City Commission, even though you still lived in Biscayne Gardens. Earlier this year you changed your claimed residence to a West Dixie Highway address even though you still live in Biscayne Gardens. I filed a complaint with the Florida Division of Elections with photographic evidence and my statement of where you live. As you are aware, the Division of Elections stated that the evidence I sent them was insufficient to prove or disprove where you live. They sent me a follow-up application to submit further evidence. As far as I am aware, no one is stalking you. Residents of NMB have the right to verify the residence of anyone running for office in NMB to ensure those runnigng for office, actually live in the City of NMB. You are welcome to drive by my home to verify I actually live in NMB and my vote is legitimate to vote for Commission candidates.

I notice in most of your correspondence you always seem to play the race card, claiming people are harrassing you because you are black. However, all the fake AI generated group photos you publish lack diversity with any other race. You reply to any commentary that your skin color is the reason you are being called out. On the contrary, you are being called out because your entire life is one big lie. Almost every statement you make, whether its at Public Comment, in correspondence, or on your campaign material, it's mostly embelleshed or a lie. Your claim of ""life-long residency in NMB" is a lie. Your claims of who you voted for is a lie. Your addresses where you claim to reside are a lie, If you are not lying about your residency, prove it to your detractors with a copy of a 2025 and 2026 copy of an electric bill and water bill with your name on it with an NMB address. 99.99% of apartment or condo leases do not include utilities.

As Ms. Kienzle and Commissioner Smukler have already stated to you, when you run for public office, and corresponde with emails in which you copy any government email address, the entire correspondence is subject to public records laws. If you don't want your emails being seen by others not in your email chain, don't copy city or government agencies or Next Door type blogs. Once you hit "send" on your keyboard, your email becomes a public record forever, especially when you lie and that attracts the attention of others you don't want to hear from.

Ms Joseph,
Just to be clear. I did not originally include the police department in the email thread. Our police department has much more important things to do then to focus on you.
You feel harassed as a black women? I have a lot of friends that are black women and they have never ever said that I have harassed them.
However as a Cuban Jew, I feel threatened by the organization you proudly hail. The DSA. I am very concerned that if you were to win, that you will try to have me arrested for being Jewish.
Finally there is no privacy in a city email. If you would have sent it to me, to my private email, I would have had to go through the clerks office and attorneys office asking them if it was proper and legal to send it to the UNpaid blogger.
You will have NO privacy as a commissioner. Also there will be no privacy if the socialists take over. I know because my parents are witness to it.

>>>
>>> I grew up in a house where one of my fathers best friend was a black man. Meaning that I was not taught to be racist. I do believe it is something you learn at home. I take great offense that you say that I am. That is a strong accusation to make and again I hope that if you were to win, that you could stop saying such hateful words so that residents do not feel threatened by you. But then you are a DSA, therefore you believe in communism and the right to turn off that microphone or have people arrested for speaking out against the government, like my father was arrested in Cuba for doing so.
>>>
>>> Just yesterday I went to my first board meeting on a committee that I was invited

to be on, at The Greater Miami Jewish Federation. At the meeting we were talking about the different sub groups. When I spoke to my husband later that day, I mentioned to him that there was a group that is about Jewish and Black relations and that on Monday I will call the chair and ask him to put me in that committee. So as I am trying to fix Jewish and Black relations, you are just trying to ignite hate.

I asked you back in February to send me your Master Thesis on Washington Park. It's not that I did not believe you, I just wanted to learn more about WP, just like I did that night while watching the WP documentary. I never got it and I searched my email once again this week looking for it just in case I really missed it.

The other day, while speaking to Mr Cayard, he mentioned that you told him, you did your thesis on The Cayard family. I told him you told me otherwise. I did say to him that you were either lying to me or to him, but I did not downright call you a liar.

I received both emails from you about WP and the Cayard family. I mentioned it to Stephanie K, who is NOT a paid blogger and unless you can prove it, you should not make accusations (again another concern I have for the residents that would come and speak at the dais, are you always going to accuse them of being paid to speak?).

Stephanie asked me to send them to her. I actually took hours to do it because I was busy and you are not the number one priority in my life. It is after all a public record so I did at her request. I would do the same, if you had asked me for something. One or two emails I would to anyone since that is an easy task. Much more than that, I would have them go through the clerk.

Another lie that you have just mentioned is that I am part of Wake Up NMB. I have never attended their meetings. I understand you have, does that make you part of that group?

For every time you say, that we are harassing you, because you are a black woman, I want to yell back at you and remind you that you are a Democratic Socialist whose organization is anti Jews, which I am. The DSA believes in the Castro movement in Cuba. That government took my parents home and business.
So as a Jewish Cuban women, I am in great fear that if you win, you will try to get me arrested for being a Jew.

If someone is following you, maybe it is your own shadow. If it is not your shadow, then prove it. I do not believe that the City Of NMB, has the money to spend on you, unless you were involved in a criminal case. If you are then another reason to be scared of you.

I am not afraid of you calling on attorney. I have done nothing wrong. This is all a public record, which as you are a socialist, another fear I have is that you will try to suppress all public records. That is what socialism does. Also I literally held attorneys in my belly for nine months and natured them through their

teenage years. I am not afraid of them. Go ahead and call all the attorneys you want.

I hope you morning is pleasant and beautiful,
Fortuna

Dear Local 10 Investigates Team,

I am a candidate for North Miami Beach City Commission, Seat 4, and I am asking Local 10 to investigate a documented five-month publication campaign by VotersOpinion.com and its publisher, Stephanie Kienzle.

Between March 13 and August 10, 2026, the website published 26 articles about me containing more than 300 visible references to my name. The publications moved beyond political criticism into fact-implying accusations involving criminality, felony impersonation and theft, false identity and residency, antisemitism and support for Hamas, financial wrongdoing, and alleged theft of City intellectual property. The articles I reviewed did not cite a charging document, conviction, or judgment supporting the criminal accusations.

I notified the publisher in writing on June 26 and August 5 that specific statements were false and offered supporting evidence. The publisher stated that verifiable proof would be considered and corrections made where warranted, but the disputed statements remained online as of this week.

I am also a survivor of domestic violence and previously asked the publisher not to disclose residence-identifying information. I can discuss that safety issue confidentially without transmitting private records through ordinary email.

I believe this raises a broader public-interest

Anyone who deals with a government agency either knows, or should know, that this is the essence of Florida's Chapter 19, a/k/a our Sunshine Laws. One simply does not delete **PUBLIC RECORDS** under penalty of law.

Your insane demand to Commissioner Fortuna Smukler for the "removal of reports and published copies of [your] email" is asking her to violate a Florida Statute, which is an illegal request.

I realize that you are cut from the same cloth as your buddy, Michael "Contempt of Congress" Joseph. He was exposed for trying to force a government employee to alter or change a **PUBLIC RECORD**. This is one of the many violations of the law for which he is currently being investigated by multiple agencies.

You and Michael are two peas in a pod. It's little wonder that he recruited you from your real home in Biscayne Gardens to run for office in North Miami Beach because, well, water always seeks its own level.

He recruited you and your "slate-mates" so he can have more control of the dais. Hopefully, he will be arrested and removed from office before that happens.

The residents of North Miami Beach will be made aware of your intent to violate the law.

I am also copying this email to the City Manager, the City Clerk, the City "Attorney," and the Chief of Police for further review.

You go ahead and "pursue" all "the legal grounds" you want because, sweetie, you got nothing.

Meanwhile, we are having way too much fun watching you make a fool of yourself. Thanks for giving me even more material for the blog.

Never forget that **THE INTERNET IS FOREVER!**

Fondly,

Stephanie Kienzle

P.S. Please let me know who's paying me to blog so I can ask for a raise.
